

To anyone buying a manufactured home:

My wife and I felt like we needed to do our home work, our "due diligence", and consider as many dealers as we could. We considered many in Santa Barbara and Ventura, and even some outside LA. Each time, there was absolutely no question that Anacapa homes was far and away the best dealer.

Communication:

What is more important than clear communication with your dealer? You need to be able to talk clearly with them, since they are going to make sure the house is built the way they understand it. The dynamic team of Katherine and David work so well together. They are very different people, and so what one does not understand right away, the other does. This was very important to my wife and I, who are also very different, as we explain what we want in very different ways. Talking with David and Katherine was effortless.

Professional:

Katherine and David have been doing this for a long time, and it shows. They know their business very well. They made sure we considered many aspects of the house design. The end result is a house that my wife and I are extremely happy with.

Dedicated:

Anacapa homes worked tirelessly. They knew the deadlines and keep us ahead of them. They were proactive, pushing us when we needed to move, not the other way around. My wife and I were very overwhelmed with the entire process, David and Katherine walked us through the entire thing smoothly. They also returned all of our near endless questions very quickly. I still don't know how they were able to do that so well, it is clear that their workweek is more than a standard 40 hours.

Thank you David and Katherine!

Sincerely,

Jan + Bethany B. Benis
